ABOUT ME

Enthusiastic and motivated BCA graduate with a strong academic foundation in computer applications and programming. Possess excellent communication, teamwork, and problem-solving skills with the ability to adapt quickly to new technologies and work environments. Eager to apply my technical knowledge and skills to contribute to organizational growth while building a successful career in the IT industry.

EDUCATION

Guru Nanak Dev University, Amritsar, Punjab

Integrated Master of Computer Applications (5-Year Program)
Upto semester VI

2023 – Present
(Expected 2028)

Shri Guru Harkrishan International School , Amritsar, Punjab

CBSE (Commerce)
Percentage: 62.6

2022 - 2023

12th Pass

Guru Nanak Higher Secondary School , Ranchi, Jharkhand

Percentage: 83.4 (CBSE)

2020 - 2021

10th Pass

TECHNICAL SKILLS

- Programming Languages: Python, C, C++, Java, Dart, PHP
- Web Development: HTML, CSS
- Mobile App Development: Flutter
- Database Management: MySQL
- Tools & IDEs: VS Code, Android Studio, Jupyter Notebook, XAMPP, Turbo C / Turbo C++

PROJECT

1. FlowCalc - Advanced Scientific Calculator Web Application | HTML, CSS, JavaScript

- Created a smart calculation system for solving mathematical expressions safely
- Built logic to handle scientific calculations and user inputs
- Added validation to prevent invalid calculations and errors
- Added dark/light theme switching with smooth animations

🔗 GitHub: <https://github.com/Dee-671/Calculator-Project->

2. Snake Game Web Application | HTML, CSS, JavaScript

- Developed a responsive Snake Game with modern neon-themed UI and animations.
- Integrated mobile touch controls and keyboard support for cross-device compatibility.
- Implemented gameplay features like score tracking, difficulty levels, and pause/resume functionality using JavaScript.
- Designed interactive effects including glitch animations, particle background, and achievement notifications using CSS.

🔗 GitHub: https://dee-671.github.io/Snake_Game/

3. Smart Campus Application | Flutter, PHP, MySQL, Firebase

- Developed a Smart Campus mobile application to simplify academic and administrative activities within a college.
- Implemented modules such as attendance management, quiz system, notes/resources sharing, and separate dashboards for students, teachers, and admin users.
- Integrated PHP backend with MySQL database for data management and REST API communication.
- Used Firebase for the live attendance notification module and real-time session updates.
- Designed a responsive and user-friendly interface using Flutter.

4. Chronos – Premium Digital Clock Dashboard | HTML, CSS, JavaScript, Browser APIs (Date, LocalStorage, Audio)

- Built a responsive, dashboard-style digital clock application featuring real-time time tracking, world clocks, stopwatch, and customizable UI preferences.
- Developed a dynamic digital clock with 12/24-hour format toggle and optional seconds display
- Implemented world clock feature supporting multiple time zones with live updates
- Created a functional stopwatch with start, pause, reset, and lap recording features
- Designed interactive UI with animations, and dark/light theme switching
- Added customizable settings panel (glow effect, chime toggle, time format preferences)
- Integrated real-time updates using JavaScript timing functions and Web APIs

CERTIFICATIONS

- Organized a Certificate-Based Teachers' Day Event, September 5, 2024, University Campus
- Participated in a Certificate-Based Data Structures and Algorithms (DSA) Contest, September 12, 2024, University Campus
- Completed a Certificate-Based Aptitude Workshop, February 3, 2025, University Campus
- Completed a Certificate-Based Cybersecurity Workshop, February 13, 2025, University Campus
- Completed a Certificate-Based Typing Warrior Event, April 2, 2025, University Campus
- Participated in a Certificate-Based Reimagine Innovation Event, April 2, 2025, University Campus
